

HYDRABREEZE & HYDRALINER

Crawl Space Dehumidification & Encapsulation System

Three major liabilities of an un-encapsulated and humid crawl space:

DAMAGE

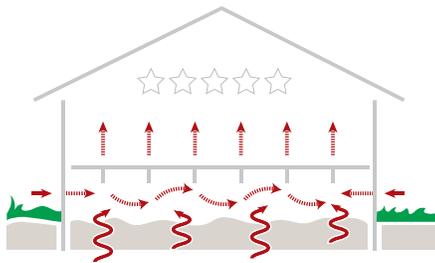

Too much moisture ruins insulation and damages your wood floors and your home's foundation.

HEALTH RISKS

Your crawl space's dark, humid environment is perfect for mold and bacteria growth.

ODOR

Mold and mildew smells. Over time those nasty odors creep into your living space.

YOUR HOME WITHOUT PROTECTION

Moisture creeps in from the ground and the sides of your home. This moisture can permanently damage your foundation and furnishings and put your household at risk for bacteria and mold growth.

YOUR CRAWL SPACE ENCAPSULATED

Once we seal your crawl space, moisture infiltration from outside your home will be reduced substantially. However, humidity created inside your home from piping and other household activities is trapped and needs to be removed for full protection.

ENCAPSULATION & DEHUMIDIFICATION

A dehumidifier in a sealed crawl space provides a complete moisture-control solution for your home. A high-capacity dehumidifier will safeguard against odors, structural damage, and the health risks associated with high indoor humidity.

PROTECT YOUR HEALTH & FAMILY

Certain conditions can cause mold growth to occur in as little as 2 days.

UNPROTECTED CRAWL SPACE MOISTURE

Outside relative humidity (RH) can drastically affect your home and promote mold growth. Typical summer conditions can create humidity levels in the crawl space that routinely exceed 85%—leading to mold growth in as little as two days.

COMPLETE SOLUTION

A dehumidifier in an sealed crawl space provides a complete moisture-control solution for your home. The Hydrabreeze high-capacity dehumidifier from Helitech will protect you and your family from harmful mold and bacteria even in the warmest summer months.

CRAWL SPACE MOLD GROWTH			
Crawl Space Temp (°F)	Relative Humidity	Dew Point (°F)	Days Until Mold Growth
68°	50%	48°	-
68°	60%	54°	-
68°	65%	56°	-
68°	70%	58°	165
68°	75%	60°	38
68°	80%	62°	14
68°	85%	63°	6
68°	90%	65°	4
68°	95%	67°	3
68°	100%	68°	2

Combine encapsulation and dehumidification to control moisture and heal your home.

COMMERCIAL-GRADE CONSTRUCTION • LOW MAINTENANCE • NO FILTERS TO CHANGE
HIGH CAPACITY • LONG-TERM PROTECTION • OPTION TO CONTROL OR REMOTE READOUT

OVER 100,000 HOMES HEALED, 5 DECADES STRONG

HELITECHONLINE.COM | 800-246-9721
